SUBJECT INDEX

AIDS
condom, health education, Scotland 47
heterosexuals, media, Australia 9
HIV, counselling course, Zimbabwe 431
HIV, methodological issues, social psychological view, young people 509
HIV, personal risk, 16–25 year olds, Britain 229
HIV, surveys, comparison, postal method 195
inter-organizational responses, Worcester (Massachusetts) AIDS Consortium 31
public knowledge, Norway 21
related behavioral change, gender differences, Health Belief Model (HBM), 18–19 year olds, low incidence country, Israeli army recruits 217
sexually transmitted diseases, prevention exhibition, Swiss teenagers 79

Automobile child restraints
acquisition, utilization, survey, Dutch 349

Bicycle helmet wearing
action research program, school students, Queensland 555

Breast self-examination
self-reinforcement, peer reinforcement 165

Childhood vaccination
attitude, belief, social norms 341

Cholesterol
management program, physicians' offices 151

Condom
AIDS, health education, Scotland 47
psychosocial predictors, adolescents, Zimbabwe 55
use, first-time sexual encounters, three-stage model 203

Condoms
subjective norms, predictors, use, attitudes, homosexual men 335

Dietary change
fat reduction, adults 97

Drug
awareness/prevention programs, external to school, Australia 259

Education
STD/AIDS, prevention, non-governmental organizations, marginalized groups 175

Environment
health, perceptions, adolescents 457

Guinea worm illness
surveillance, local knowledge, Yoruba people, eradication program 471

Health
behaviour, adolescent, The Model of Personal Investment, theoretical approach 277
behaviour, perceived morbidity, health status, vulnerability, determinants 327
environment, perceptions, adolescents 457
knowledge, construction, middle class families 497
value, measurement 129

Health Belief Model
meta analysis, adults 107

Health care
ethnic patient, interethnic relations, educational films 487

Health education
AIDS, condom, Scotland 47
ecology, shamanic world view 301
health information, health abilities, cognitive development, school age children 391
research literature, bibliometric analysis 117

Health information
health education, health abilities, cognitive development, school age children 391

Health-related behaviours
risk-seeking, safety-seeking, school children, Norway 269

HIV
AIDS, counselling course, Zimbabwe 431
AIDS, methodological issues, social psychological view, young people 509
AIDS, personal risk, 16–25 year olds, Britain 229
AIDS, surveys, comparison, postal method 195
prevention, outreach intervention, central London 533

Large scale quantitative surveys
qualitative survey data management, computer aided, assessment 547

Perceived morbidity
health behaviour, health status, vulnerability, determinants 327

Sex education
school, comments, young people 517

Sexual behavior
young adults, heterosexual 305

Sexual knowledge
the KISS study, adolescents, Finland 69

Sexually transmitted diseases
AIDS, prevention exhibition, Swiss teenagers 79

Smoking
behavior, prediction, Japanese young adults, stepwise discriminant analysis 437
cessation, nicotine gum, group therapy, coronary disease 87
cessation, self-help treatment, epidemiology, recruitment, predictors, telephone conseling effect modification
cessation, under 18 year old 249
postpartum relapse, prospective study 381

STD/AIDS
education, prevention, non-governmental organizations, marginalized groups 175

Substance abuse
prevention, school-based, review, 1980–1990 403

Tobacco
smokeless, use, prevention, cessation, college athletes 359
